

WHO PUT OUT EACH FIRE?

To figure out which firefighter put out each of the fires below, solve the math equations and then connect the answers with the matching fire number.

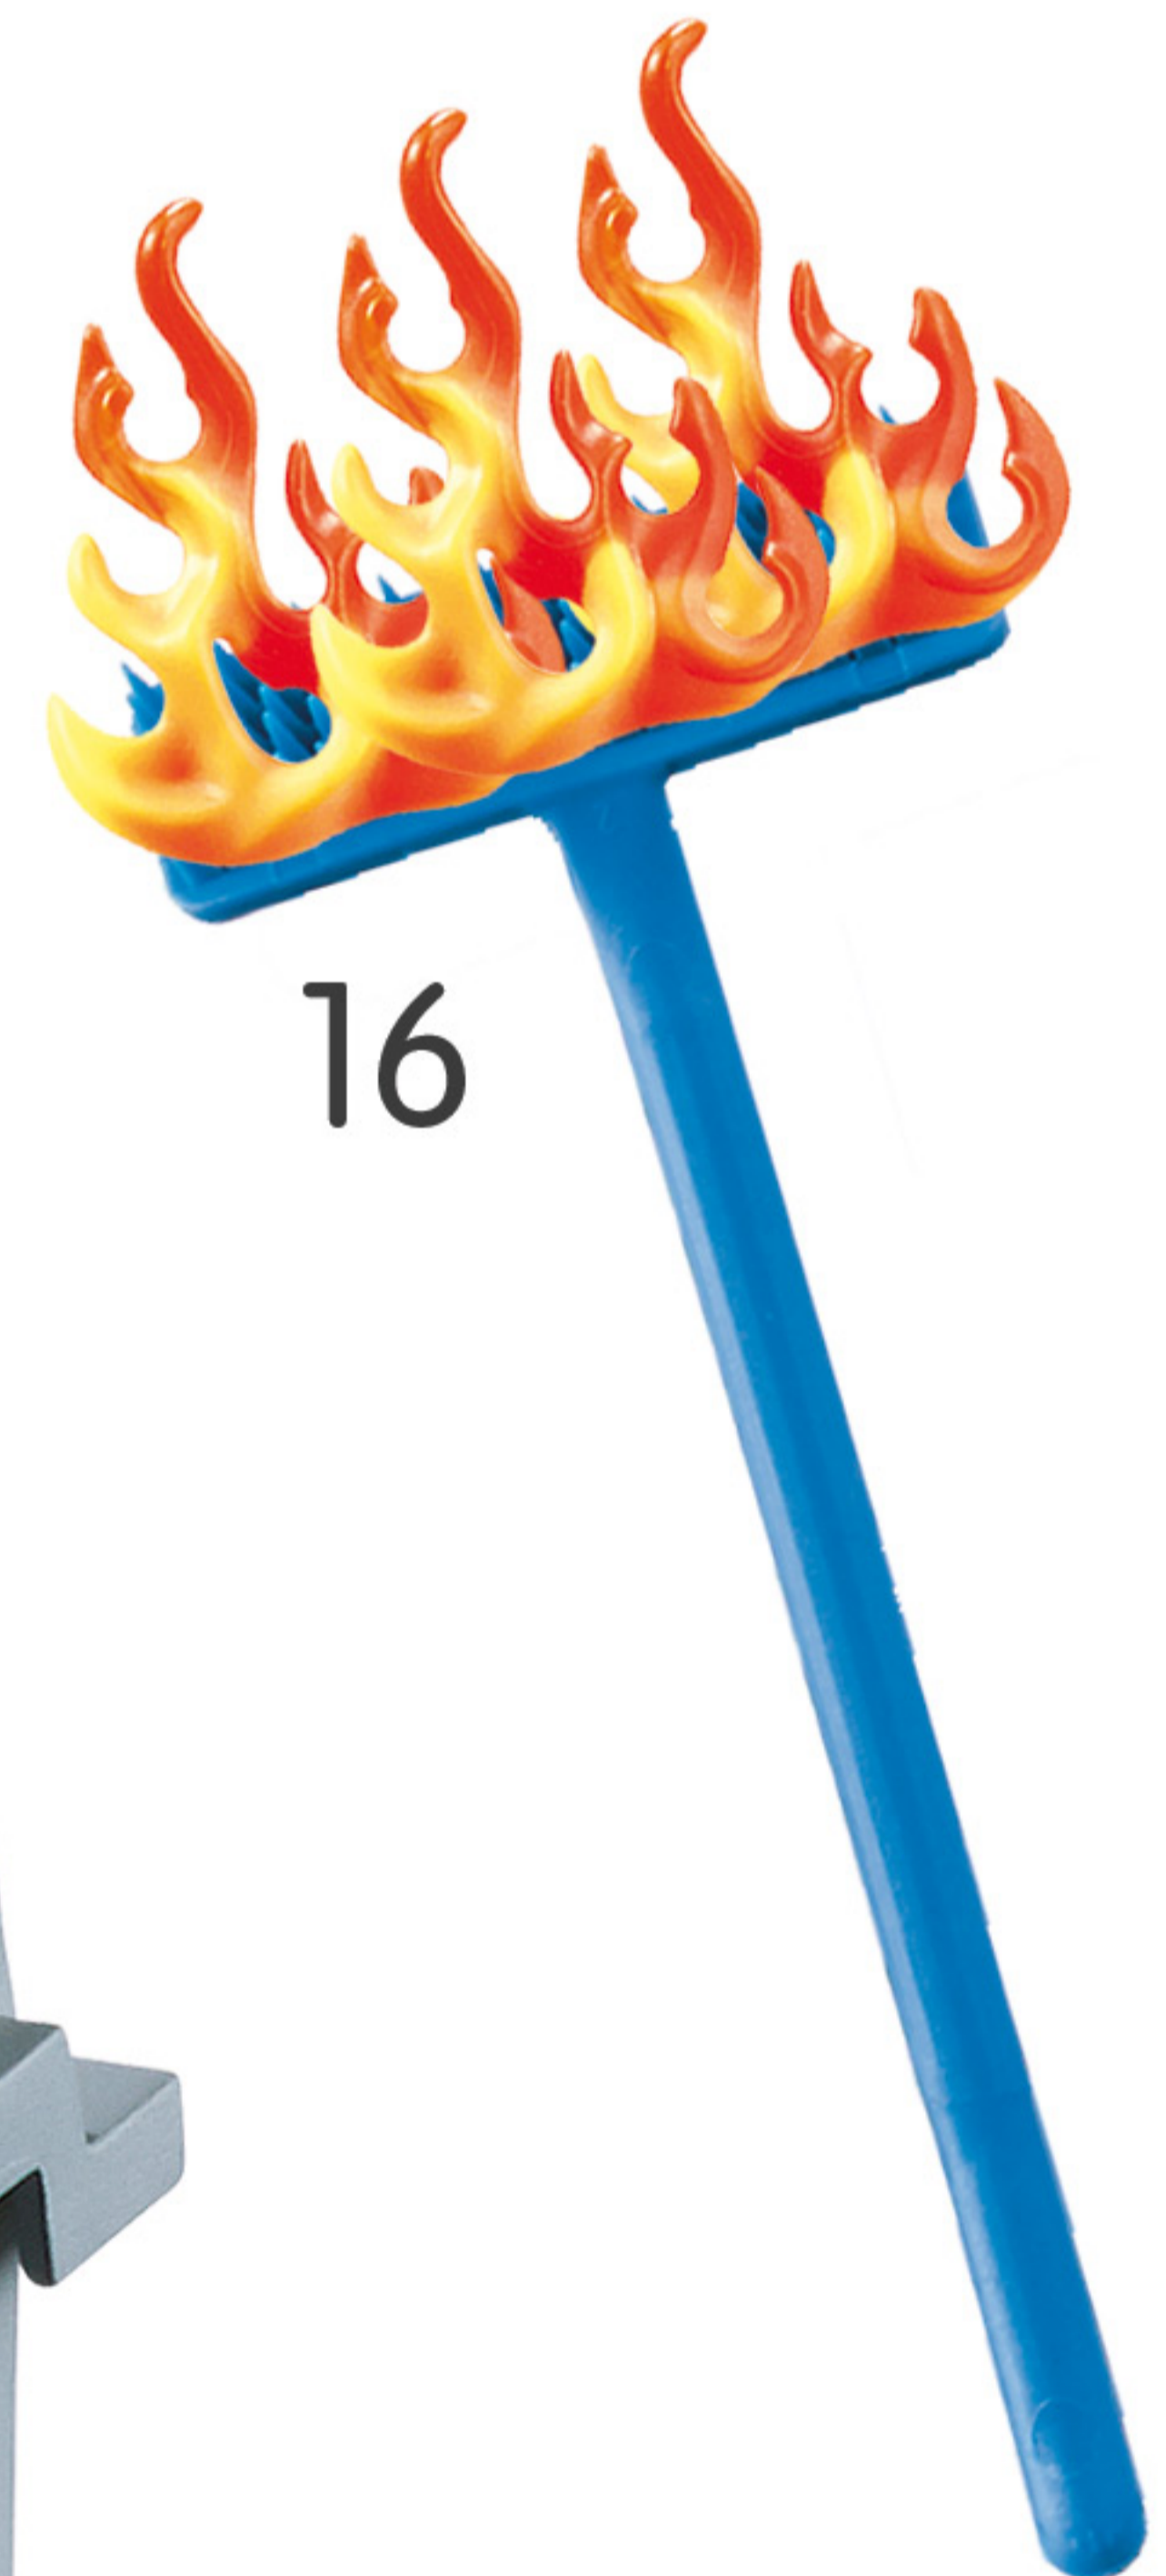

$6+7=$

$8+8=$

$19-12=$

$9-6=$

$9+3=$

(Solution: $6+7=13$; $8+8=16$; $19-12=7$; $9-6=3$; $9+3=12$)

A TRICKY MATTER

Can you help Eric to solve these tricky equations? Here's how it works: every image stands for a number. Write the correct number next to the images below to help you find the solution!

$$3 + 2 = \text{Cone}$$

$$\text{Cone} - 4 = \text{Fire Truck}$$

$$\text{Cone} - \text{Fire Truck} = \text{Flame}$$

$$\text{Fire Truck} + \text{Flame} + \text{Cone} = \text{Motorcycle}$$

$$\text{Motorcycle} - \text{Cone} + \text{Fire Truck} = \text{Firefighter}$$

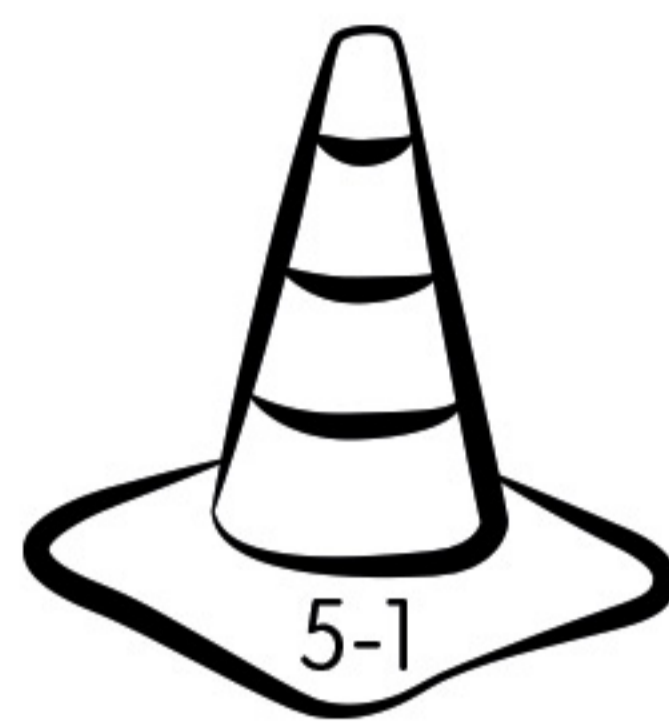

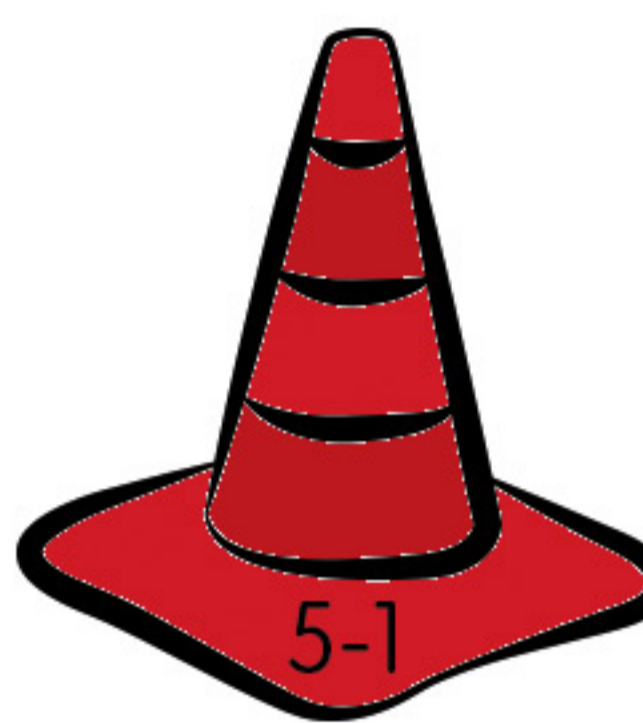

$$\text{Firefighter} + \text{Motorcycle} + \text{Cone} = 21$$

(Solution: Safety Cones=5; Fire Truck=1; Motorcycle=4; Firefighter=10; Fire Truck=6)

SAFETY CONE CONTEST

Which firefighter will collect the most safety cones? Solve the equations on the safety cones, then color them with whichever color matches the corresponding firefighter number (ie. 4 = red, 6 = yellow, and 8 = green). Now, you can count how many safety cones there are in each color and find out which firefighter has the most!

 $5-1=4$
 $\rightarrow 4 = \text{red}$

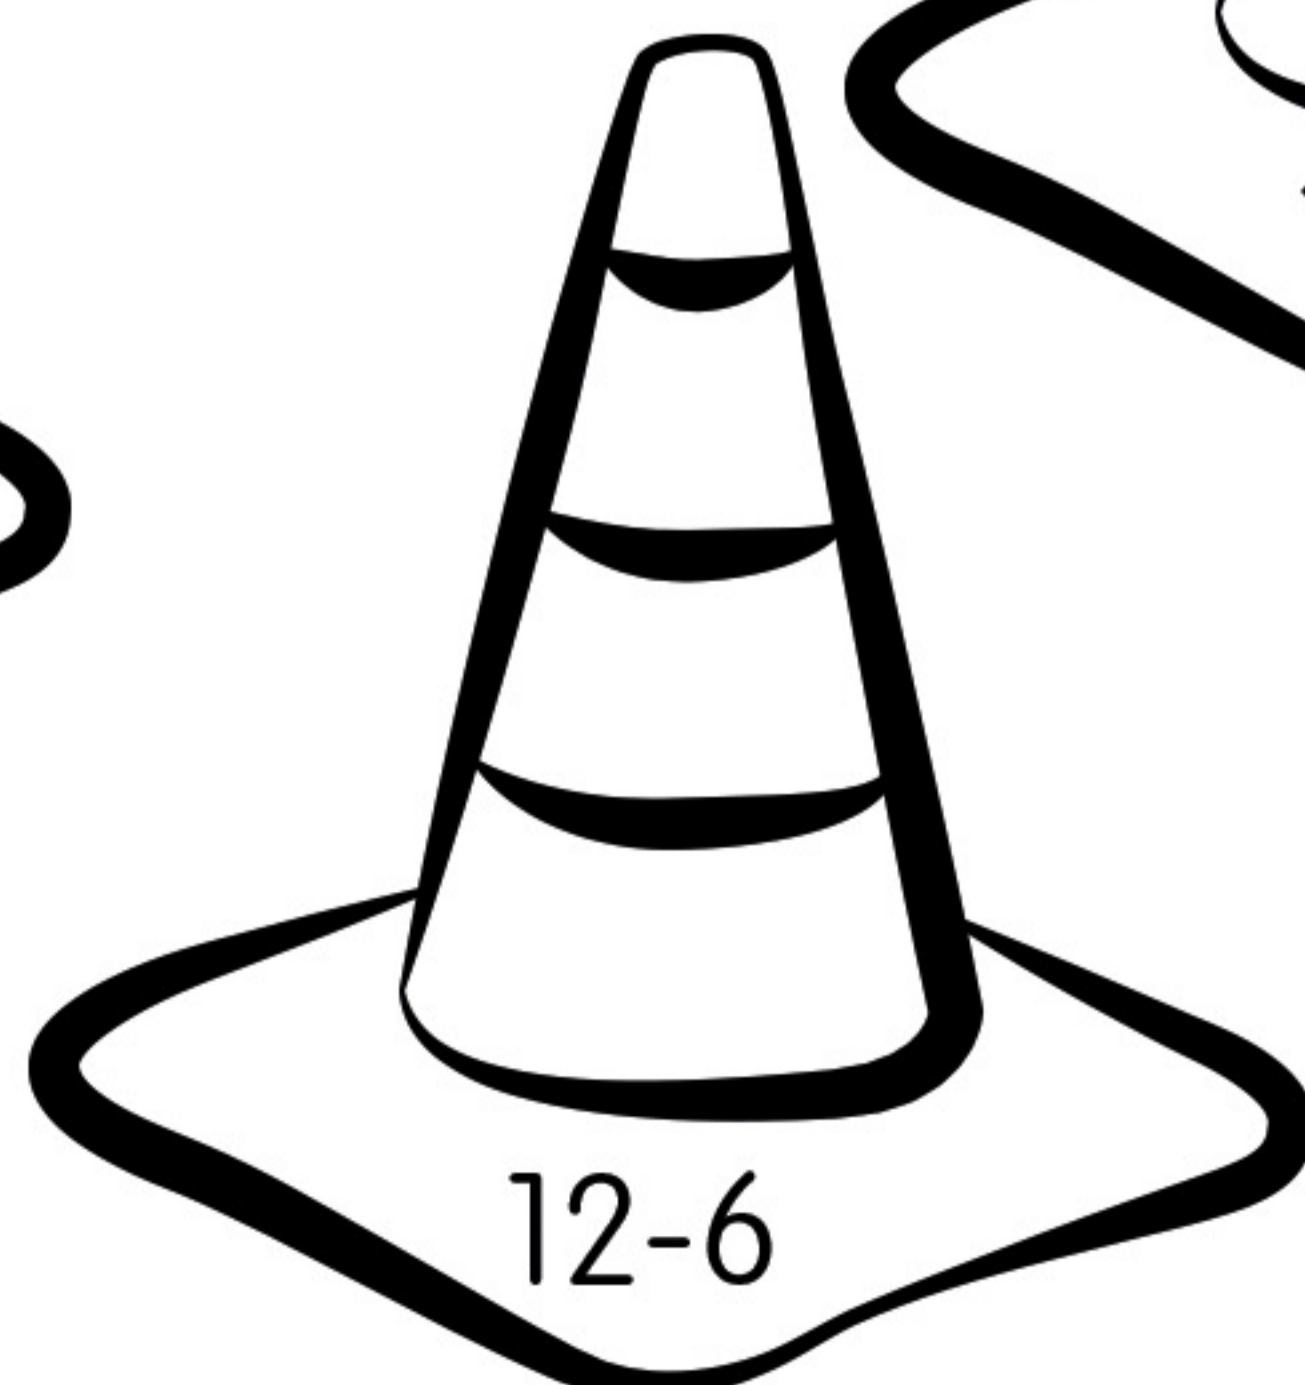

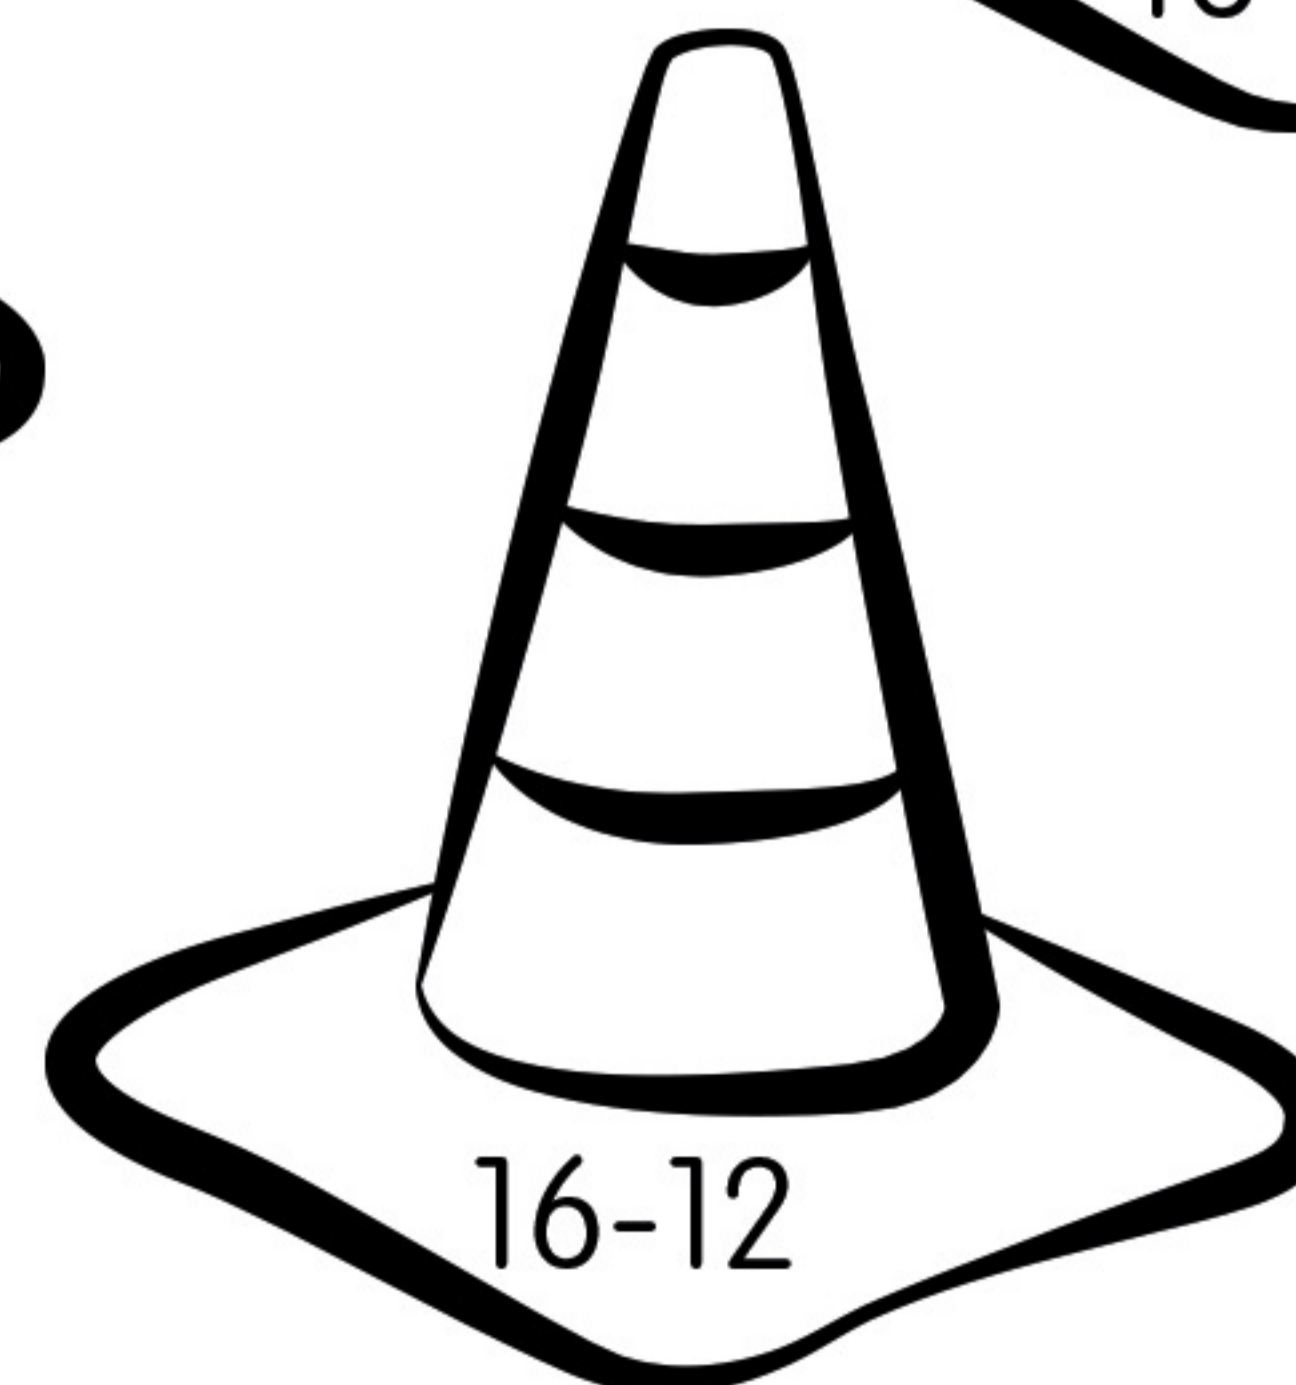

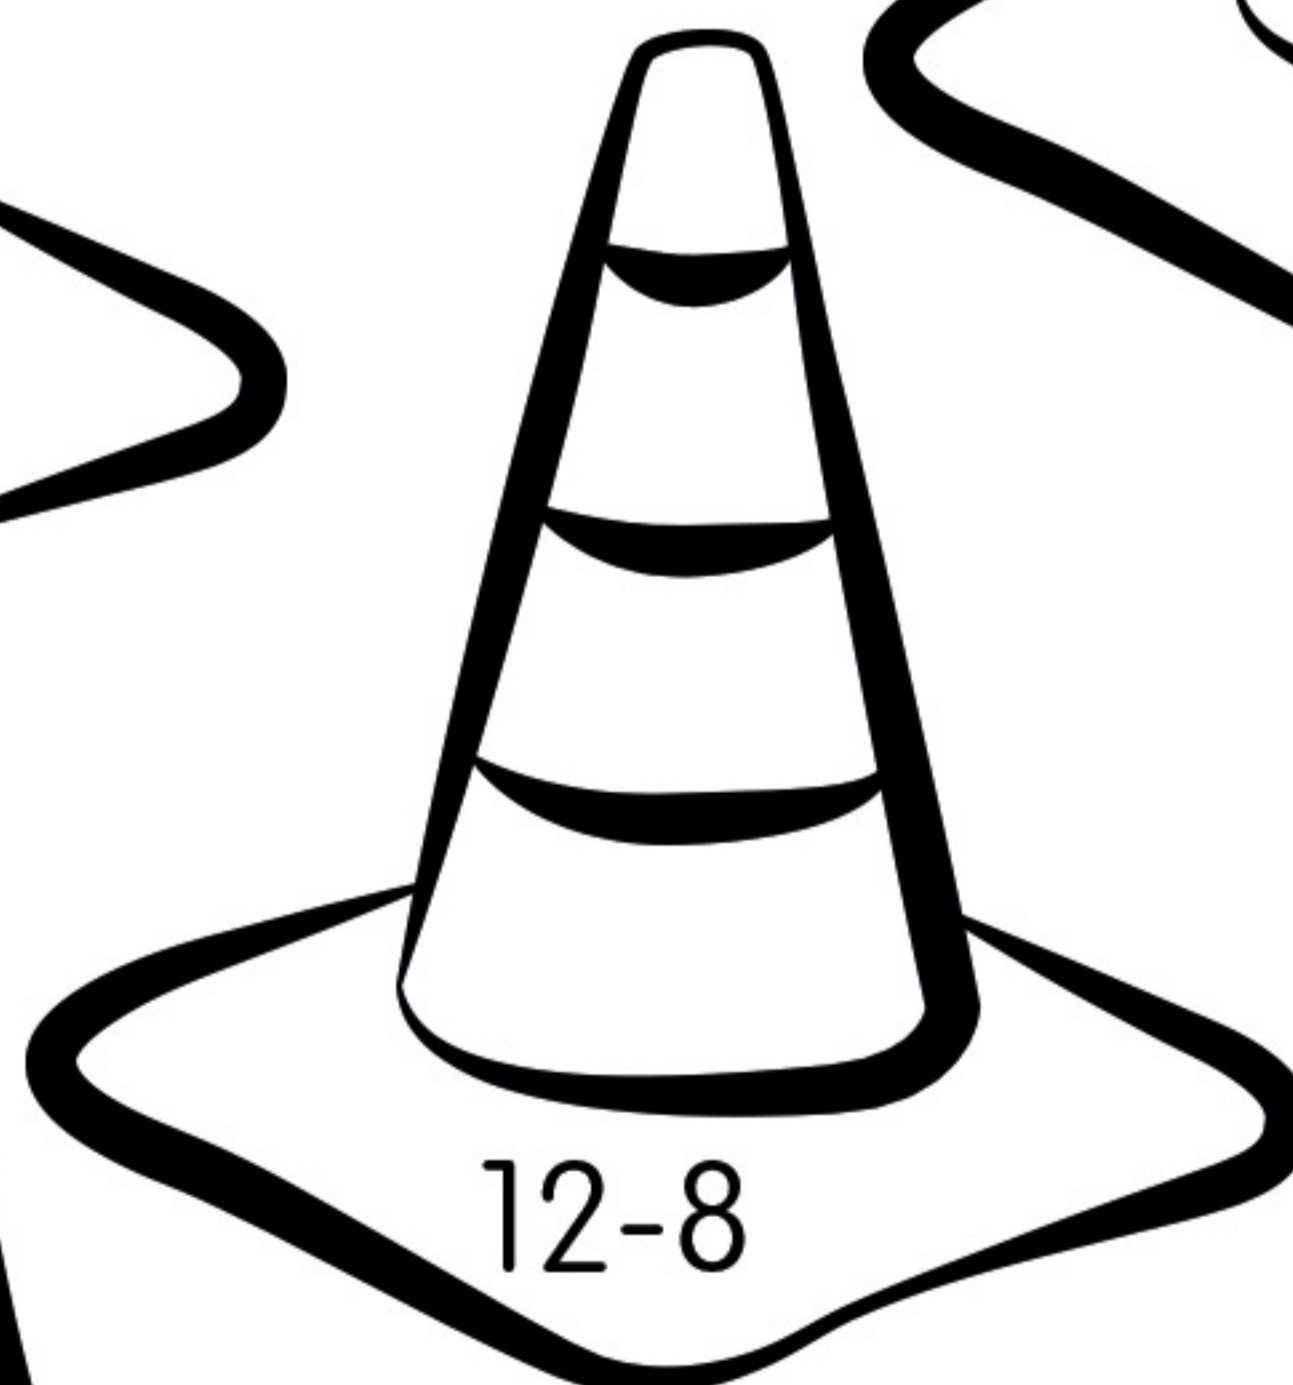

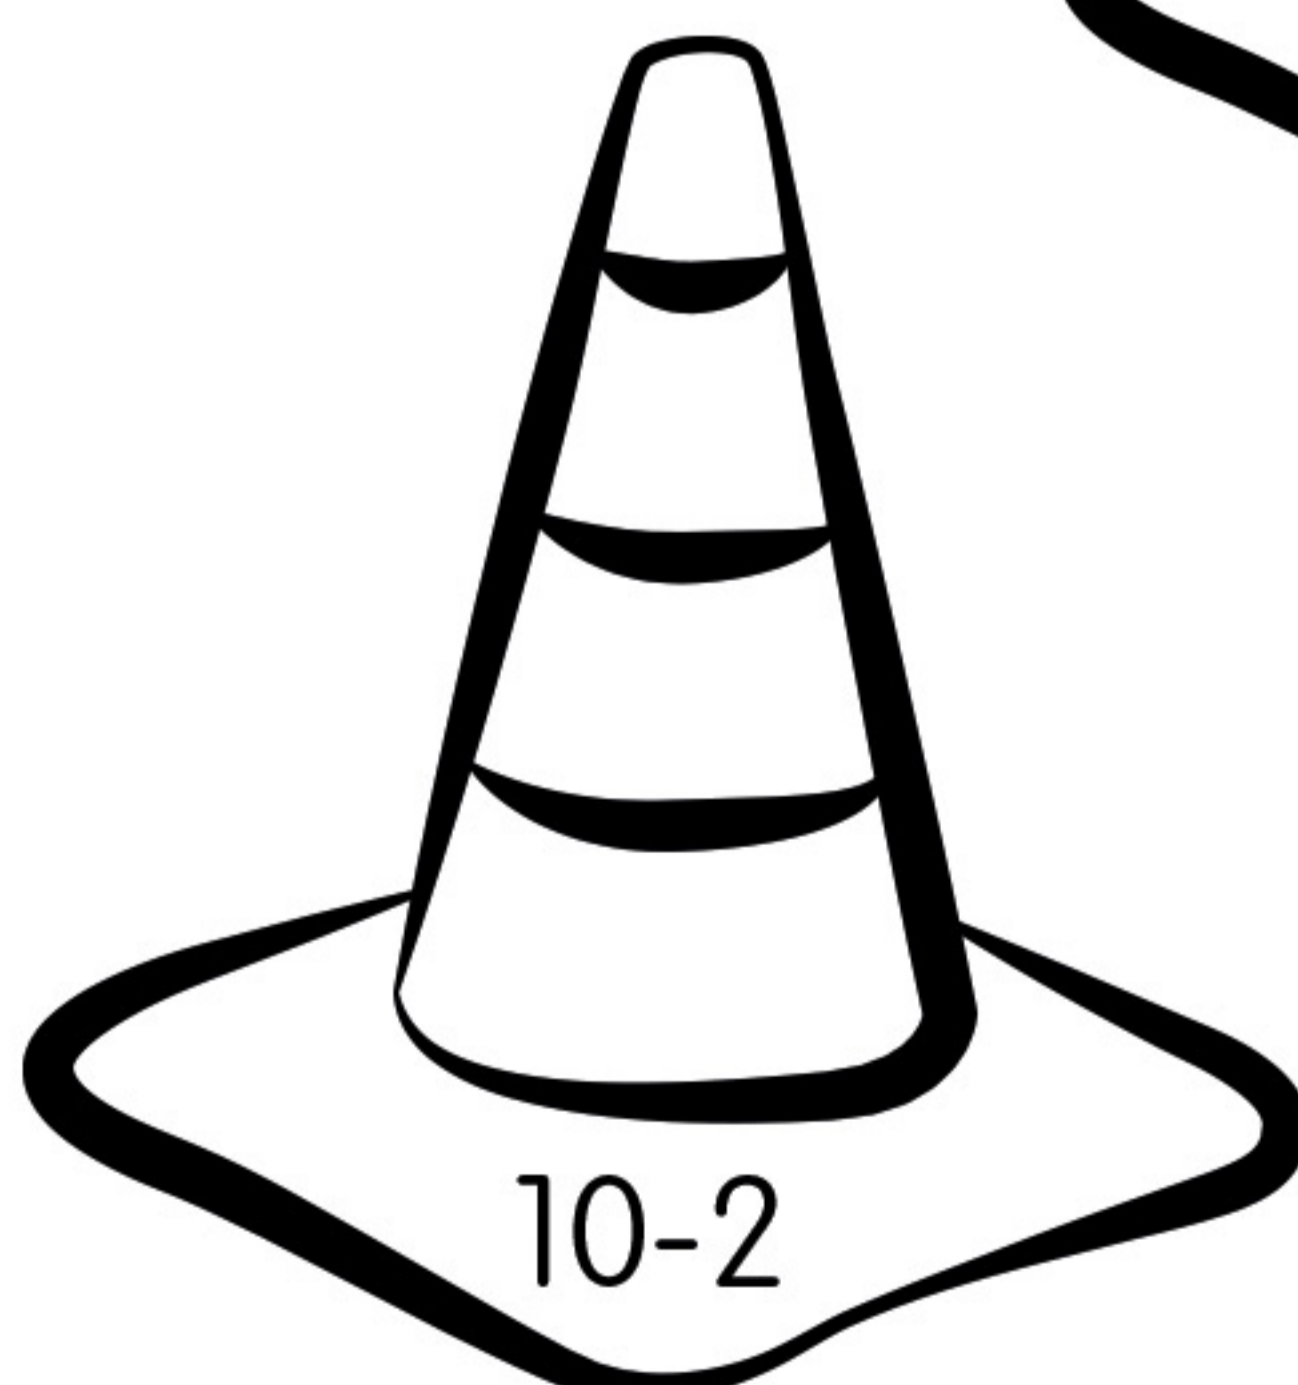

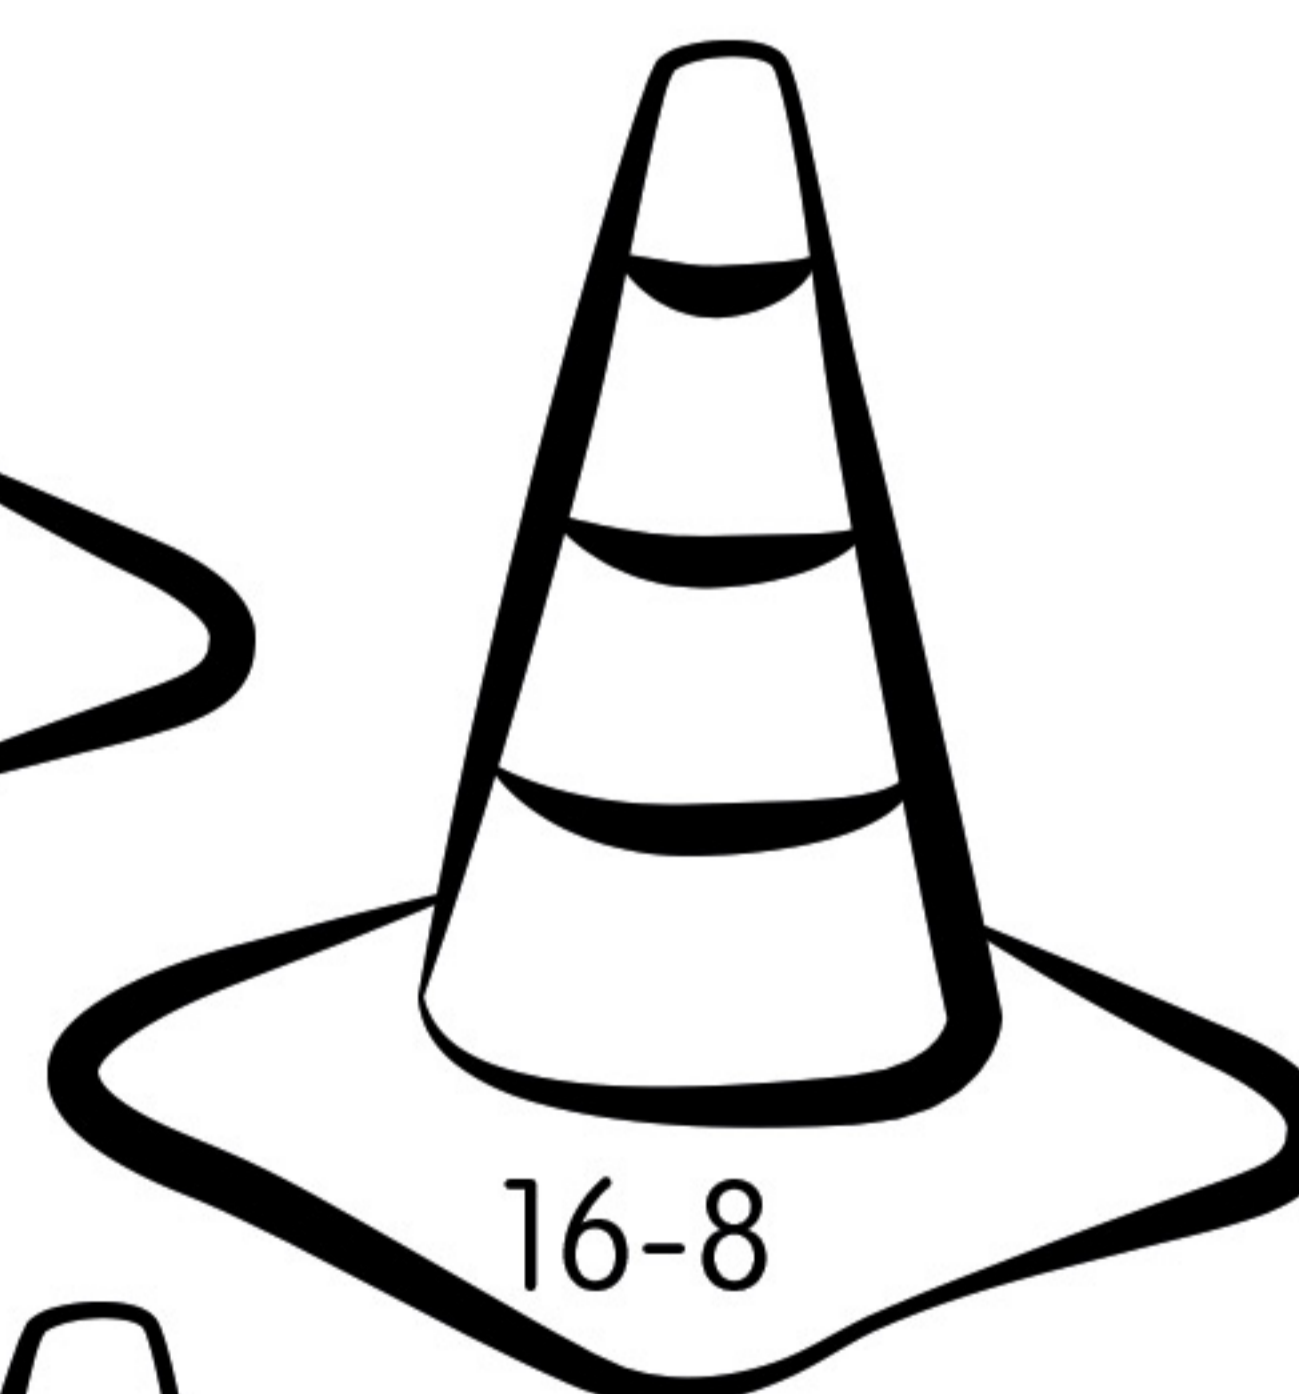

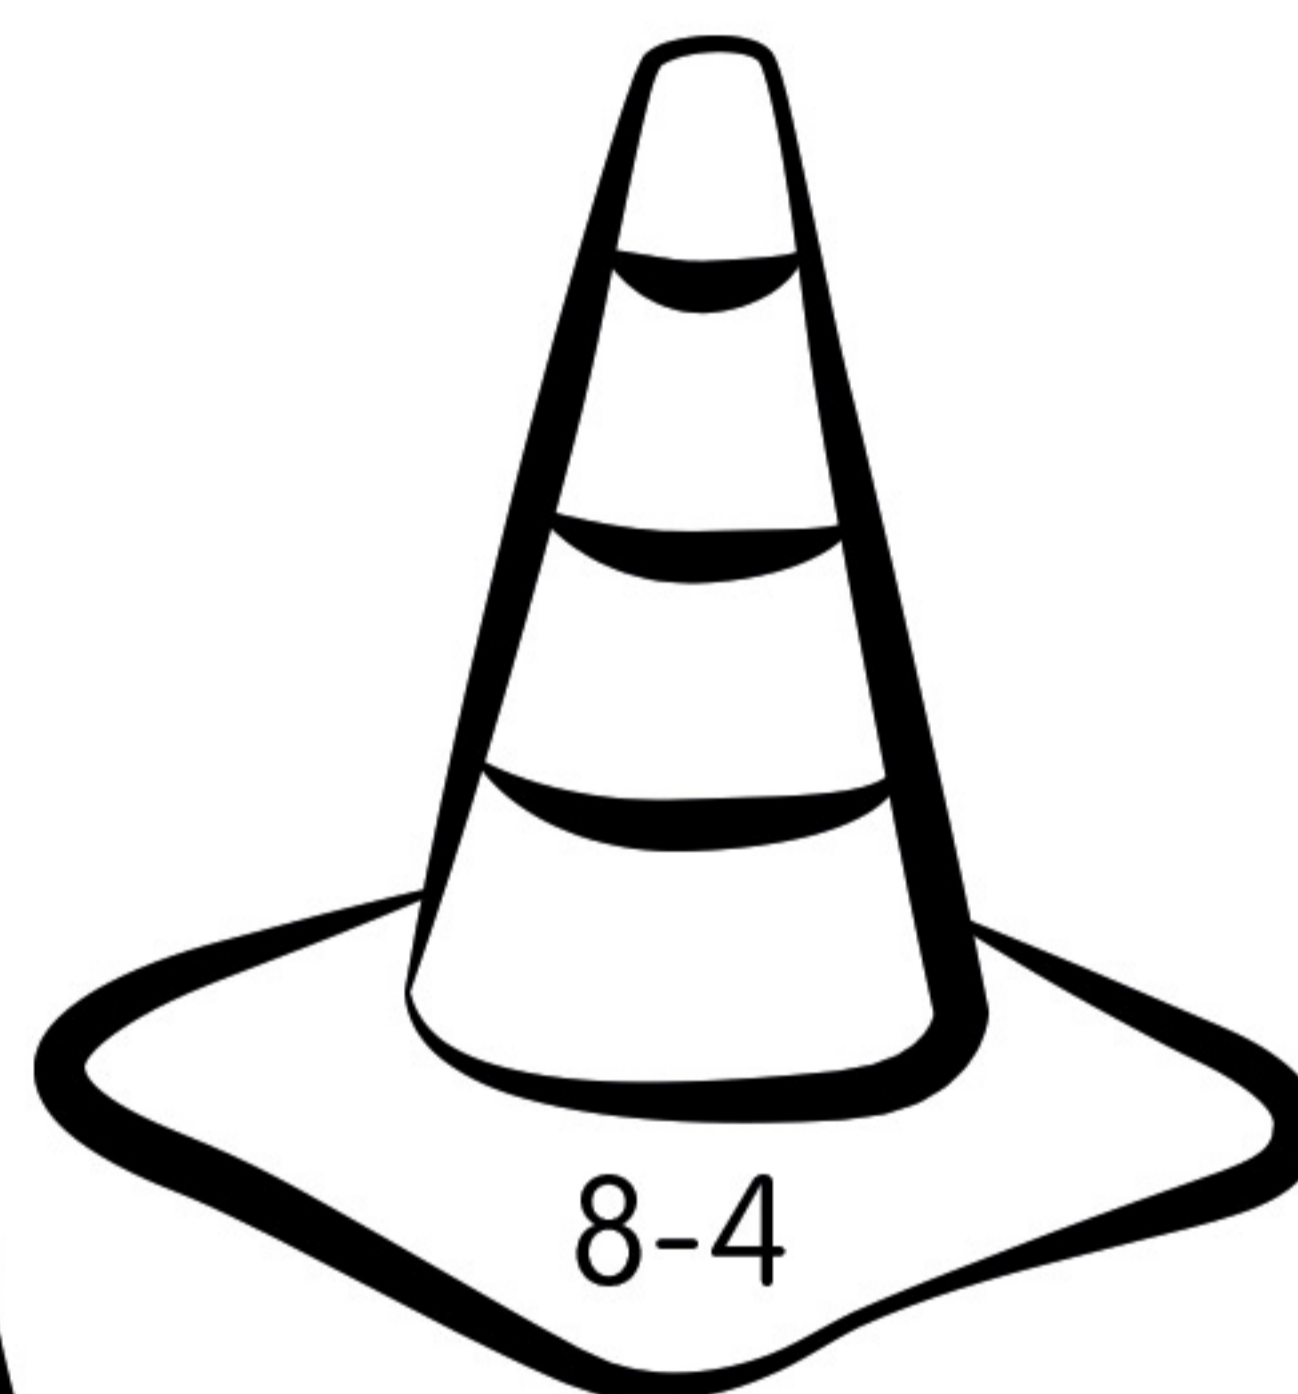

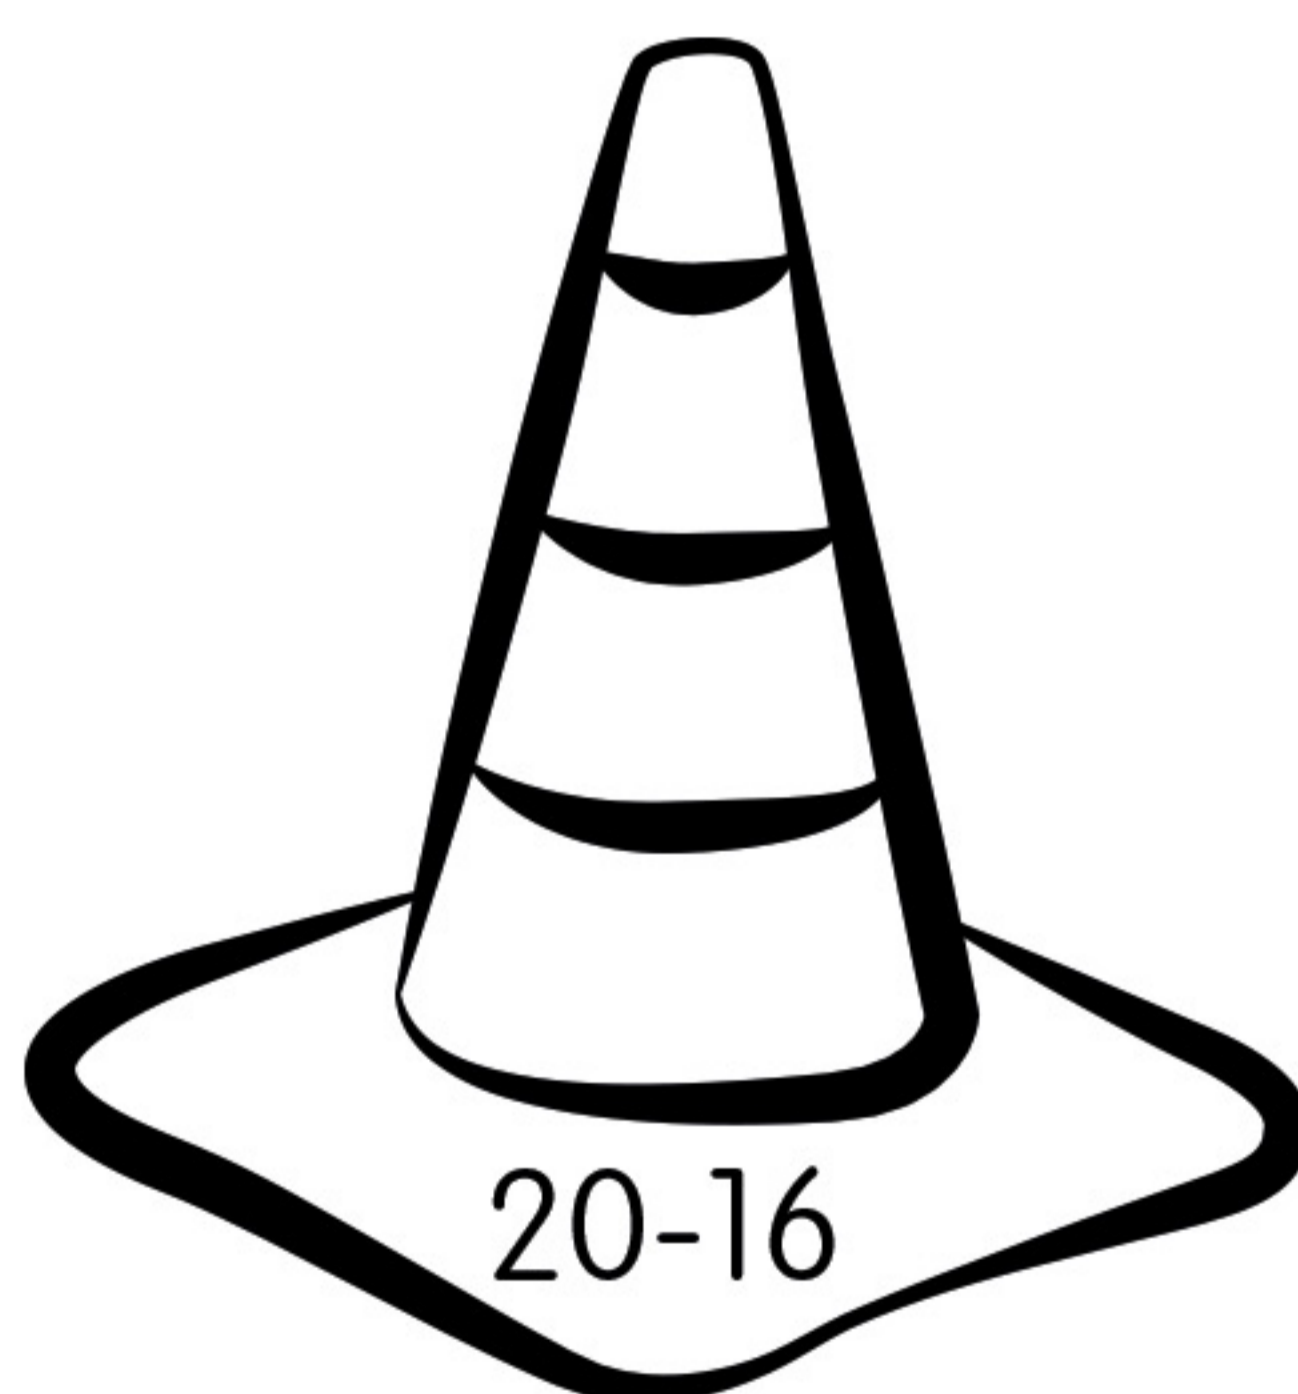

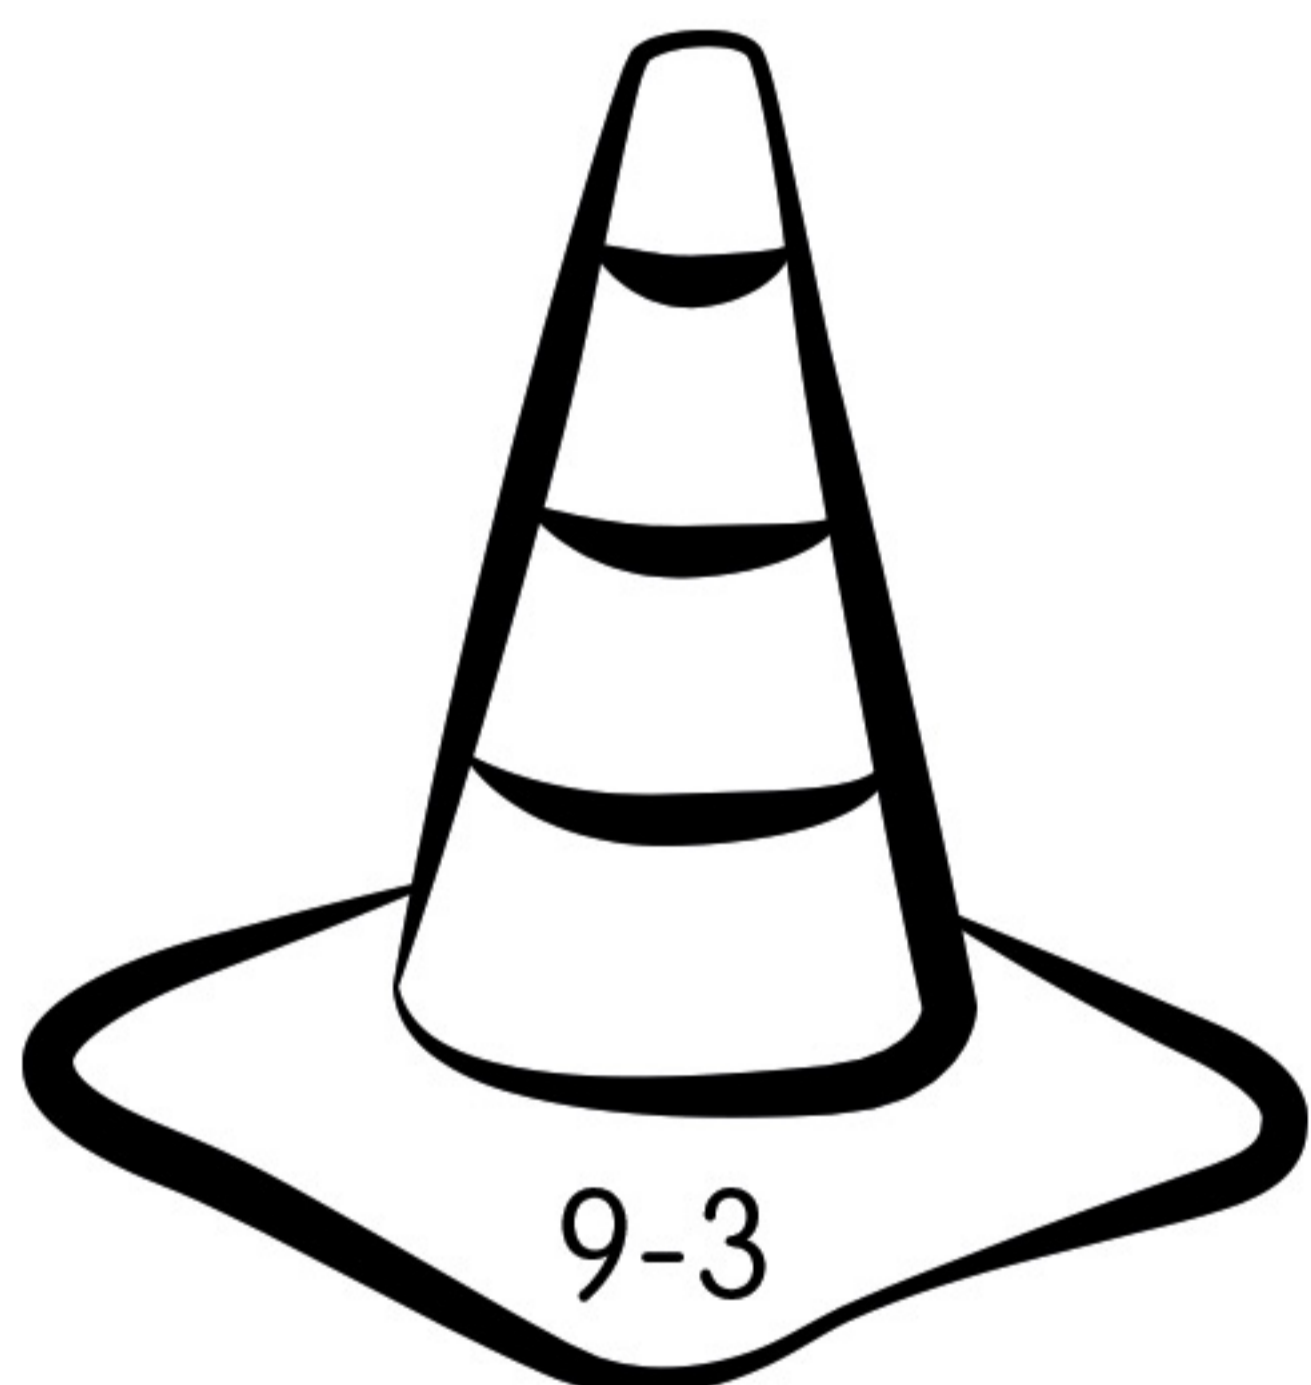

4 John

6 Tim

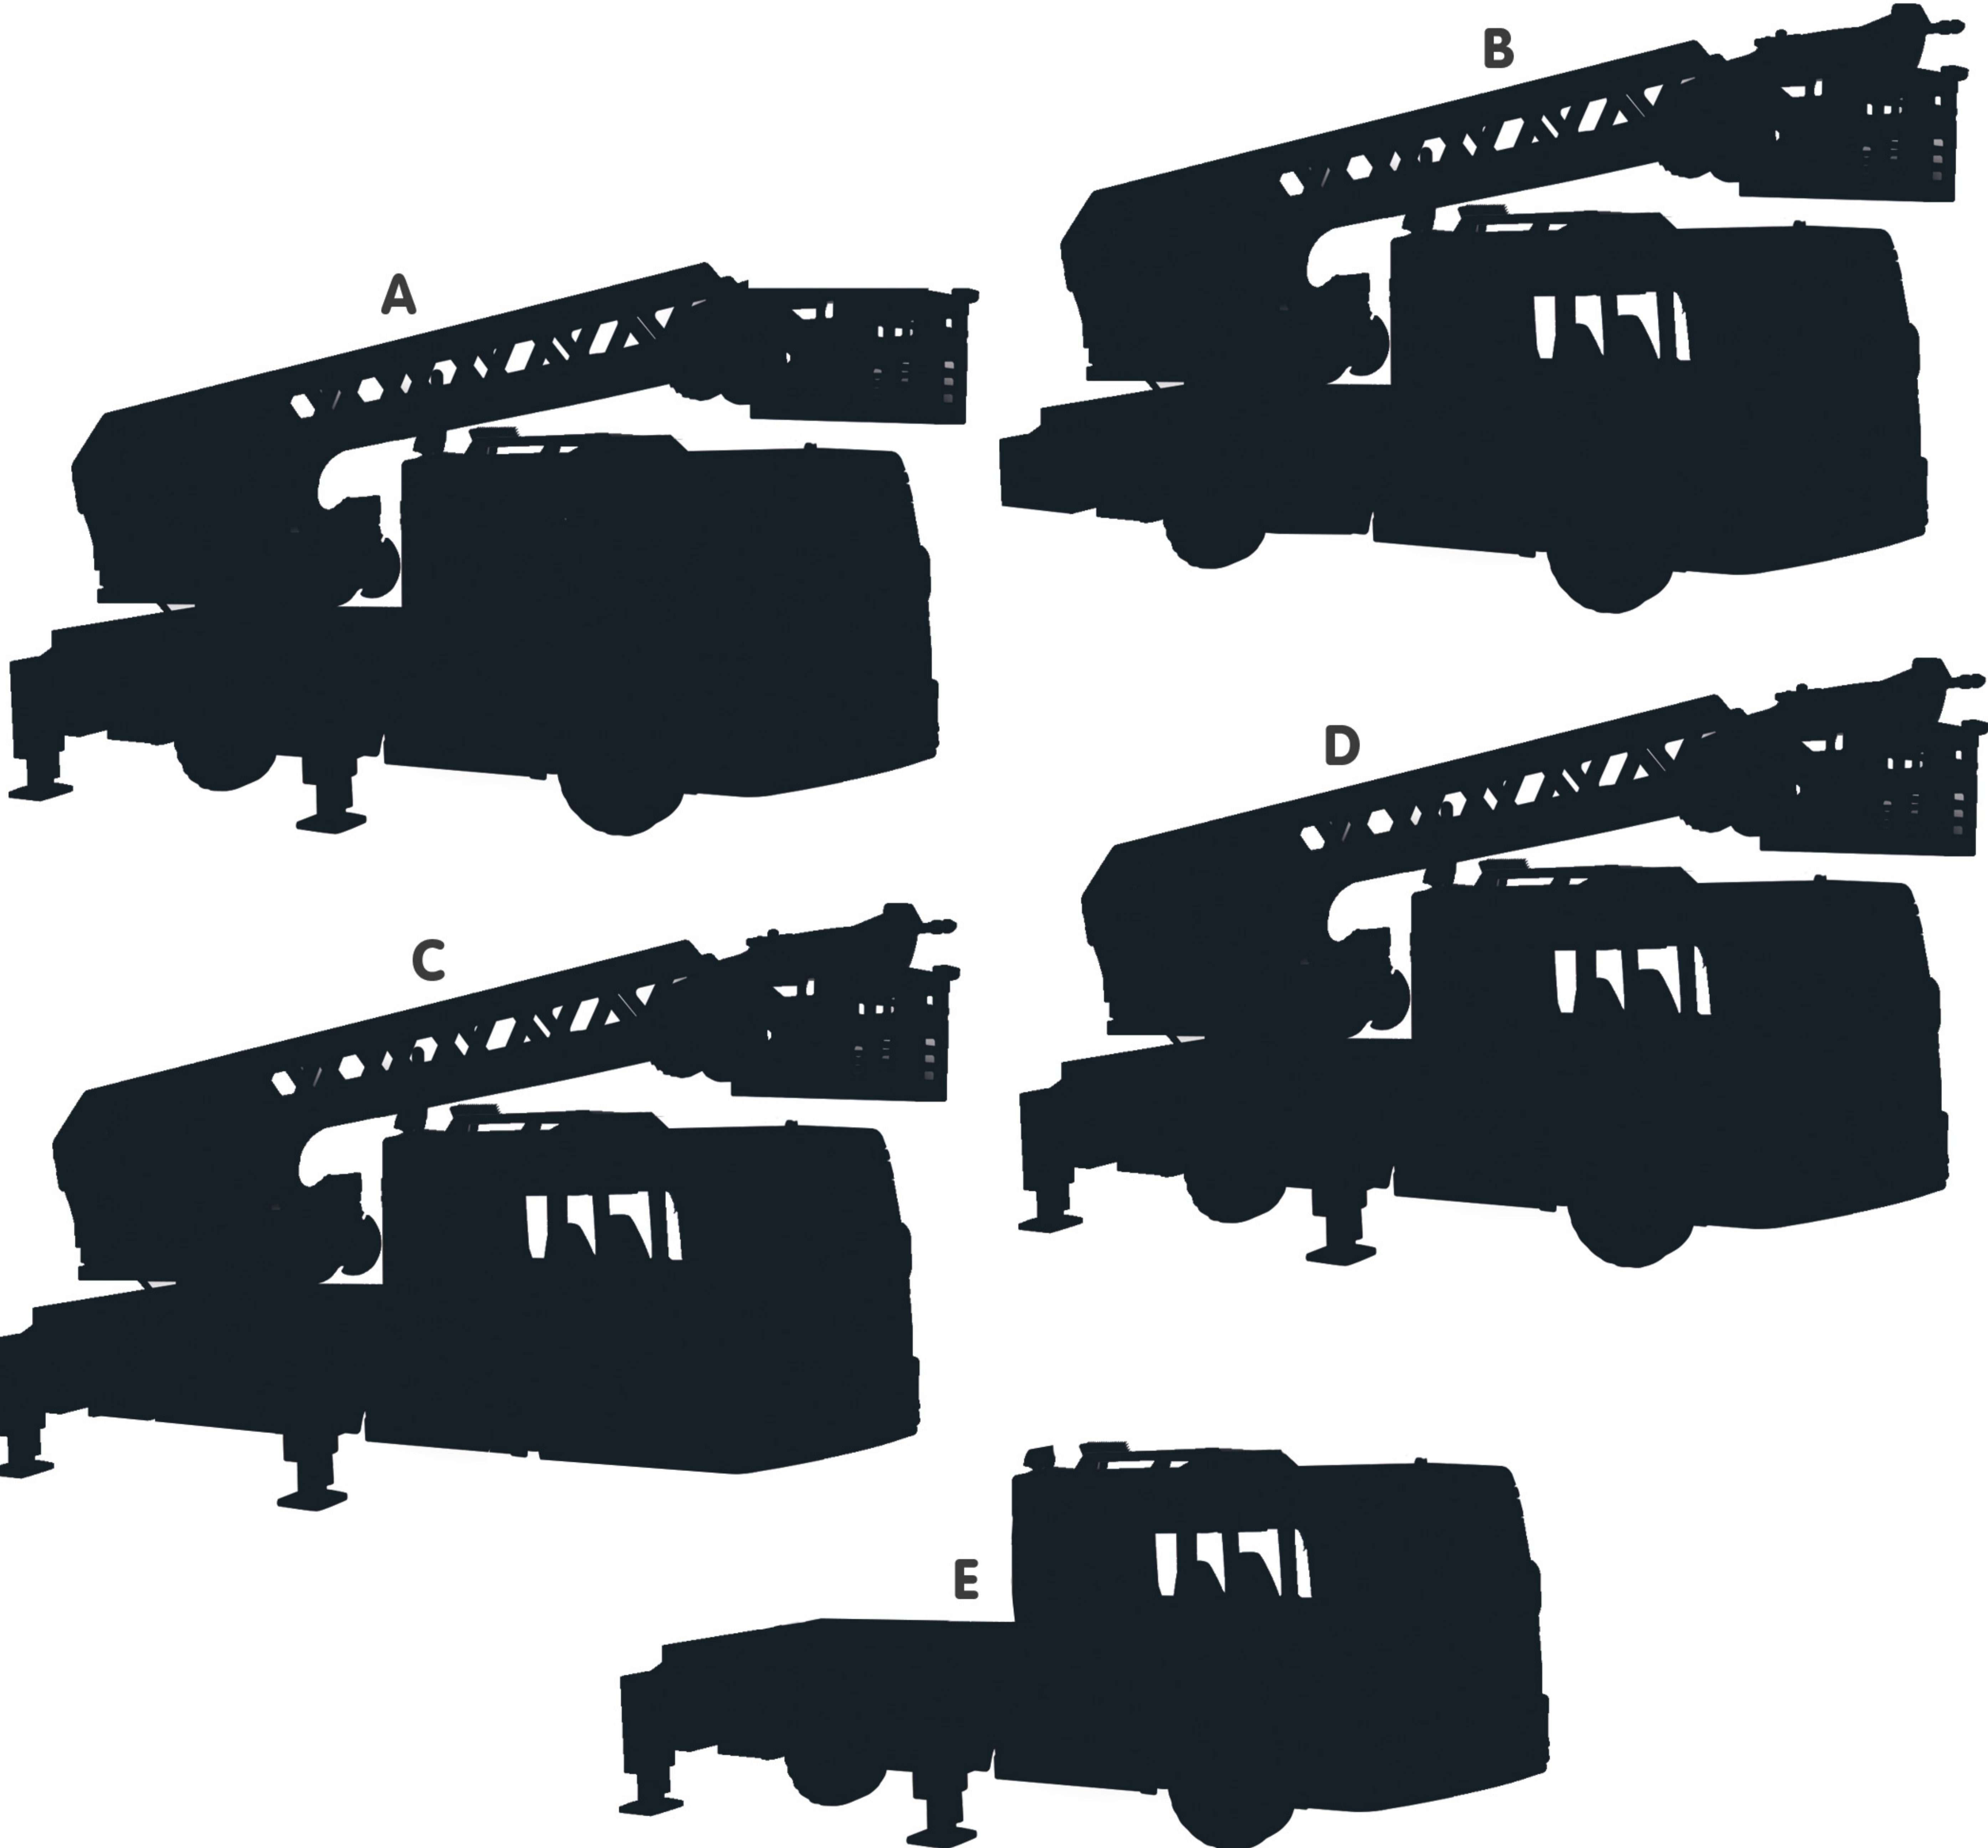

8 Alex

(Solution: 9-3=6; 20-16=4; 8-4=4; 16-8=8; 12-8=4; 10-2=8; 12-6=6; 16-12=4.)

SHADE PUZZLE

Which silhouette below matches the Fire Truck?

(Solution: Shade D)

WHO IS WHO?

- 1) John is the oldest fireman.
- 2) Felix is blond and holds a walkie talkie in his hand.
- 3) Tim has a beard and a flashlight on his belt.
- 4) Anna has a fire red megaphone.
- 5) Paul has a megaphone, but doesn't wear gloves.
- 6) Alex carries an axe on his belt and is looking at Tim.
- 7) Ben points his light at Anna.
- 8) Max has a beard and a walkie talkie in his hand.
- 9) Ian carries a red axe on his belt.
- 10) Luke is as happy as always .

RACE TO THE SCENE!

Alarm! Drive along the road with a pen as quickly as possible. Attention: If you paint off the road, you have to count to ten before you can continue. Print multiple copies of the page so you can race with your friends!
